

The Monk Botanical Gardens Kitchen Garden

*An ideal place to teach young
and old through classes and
demonstrations about
organic foods, nutrition,
and gardening.*

The Kitchen Garden...will consist of raised beds planted with herbs, fruits and vegetables, demonstrating the value of home-grown, organic foods. The planting areas will be accessible to all people. We will harvest the produce during the season and share them with area food pantries.

The Kitchen Garden Pavilion...includes a fully equipped demonstration kitchen, pizza oven, fireplace and storage space. With the harvest from the garden, we will be able to demonstrate and teach about preserving produce, meal preparation and healthy diets.

The Pavilion also features restrooms--one handicapped accessible--and a covered patio for classes, parties, meetings, picnics, or other gatherings. Roll-down sidewalls serve to keep out wind and rain.

Once the pathway pavers are installed, a map of where specific pavers are located will be available.
