Testimonials

My skin tone is much healthier. My acne used to come up under stress, a few treatments tends to help a lot. A.C.

I understand that in working with me, my practitioner will be placing her hands close to my body and will sometimes need to touch me lightly and gently. I realize that Healing Touch does not involve manipulation of my body, as in massage or chiropractic. It works by a natural and gentle enhancement of the energy field in and around me, restoring harmony and balance in my energy system and thereby releasing and strengthening the healing forces already present in me.

I know that Healing Touch compliments and supports conventional health care approaches and is not a substitute for good all around health care

Healing Touch

Benefits:

Healing Touch Therapy can be used by people of all ages and states of health. Clinical and research evidence especially supports effectiveness with the following:

- Acceleration of wound healing including sports injuries and burns
- Stress reduction and increased relaxation
- Pain relief
- Illness prevention
- Assistance with pre-op and post-op and other medical procedures
- Anxiety and depression
- Support for the dying
- Enhancing spiritual development
- Premature babies and colic

Session Information

Time: Sessions last 45-60 minutes

Clothing: Wear comfortable clothing

Medical Intuitive

Medical Intuitive—the practitioner reads the body. Scan organs to find out how well they are functioning and receiving the correct information from the brain.

Quantum Healing

Quantum Healing is like working with a computer rather than an abacus to assist in healing. For instance, if a condition were a dandelion, regular healing work would cut the dandelion off at the ground. Dandelions are so hearty, you must remove the entire plant including the root system to finally be free of them. This is precisely what Quantum Healing does: it goes to the place of origin quickly and completely clearing the consciousness as though the condition never existed. Quantum Healing is not only good for treating existing problems but preventing future problems.

Other Therapies

- Akashic Records
- Balance Hormones
- Emotional Freedom Technique (EFT)
- Past Energy Release

Testimonials

I came to Connie after being diagnosed with IgA Nephropathy. The protein in my urine was extremely high. Conventional medical services offer no treatment or medication for this disease. Through Healing Touch treatments, Connie relieved my headaches and my backaches. She also showed me techniques that I can do myself to relieve the pains when they occur, which is very seldom now vs. daily before the Healing Touch treatments. I have annual lab test to monitor the kidney function and each year, since using Healing touch, the urine protein levels have dramatically decreased.

My job requires frequent travel, and I suffered from motion sickness. Connie has also treated me for this. It's amazing how much I enjoy flying now without the having to use medication to relieve the motion sickness.

Through Healing Touch, I've experienced an increase in energy and an overall healthy feeling.

J.S.

Past Energy Release helped me release old feelings I didn't realize I was still carrying around. It freed me of a lot of past bad memories. It is incredibly powerful.

N.H.

I have had psoriasis for over 30 years and have been treated by dermatologists with only slight improvement. Since being treated with Healing Touch Therapy my skin is completely clear. These treatments have been done mostly distantly since I live 200 miles away.

S.E.
