

verizonwireless *Veterans Discount Program*

Many of you have suffered a crunch in your budget and some of you have even had to cut back on necessities. Part of the responsibility of Oregon PVA is to negotiate ways that our members and other veterans can save money. I am proud to announce that Verizon Wireless has clarified and allowed us to promote a new discount program for veterans. We have been working with a local representative which has been instrumental and is willing to work with any of our veterans no matter where they live. It is very important that if you are wanting to participate in this wonderful program either contact

Christopher Ray or you can visit a Verizon Wireless store (not an independent dealer) to participate. Verizon Wireless, the nations leading provider of wireless service, is consistently recognized as having the most reliable and largest wireless network in America. Christopher Ray says, "Veterans can save even more on this high-quality wireless service. In appreciation of your service, all veterans qualify for a 15% discount on any voice lines of service priced at \$34.99 or higher. In addition, veterans qualify for special discounts on phones and accessories.

A 10-year veteran of the wireless industry, I have assisted thousands of customers with setting up and

maintaining their cellular service. I personally strive to provide every one of my customers with the best possible customer service, tailored to their specific needs. Whether you are looking for a single phone, mobile broadband Internet service or to outfit your small business with a complete communications solution, I have the experience necessary to help you meet your goals.

As your local Verizon Wireless representative, it would be my pleasure to assist you with all of your wireless needs. Please feel free to contact me at (503)910-5220 or I can be reached by email at christopher.ray1@verizonwireless.com."
