# FC-700 PISTOL CABINETS

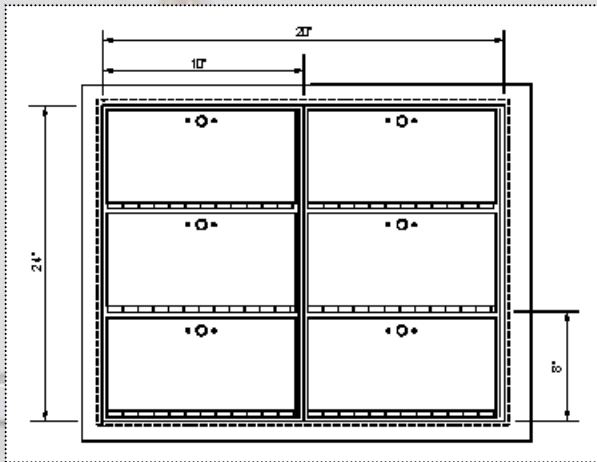

FC-700-6 GUN CABINET

The FC-700 Pistol cabinet is a high security cabinet for individual security of police & security officer weapons.

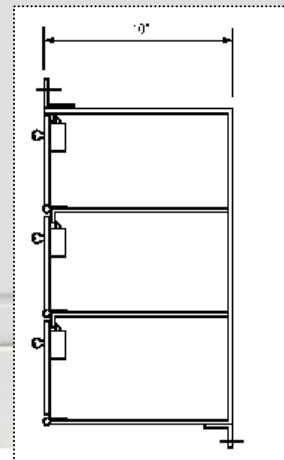

Made of heavy duty 10 ga steel welded steel construction. Each door is connected with a 16 ga piano hinge, & is secured with a groove key operated snap lock. It is designed with large 10"x10"x8"high compartments to accommodate the larger hand guns used by today's officers.

Locks are individually keyed pin tumbler snap bolt locks, & are master keyed. Doors are recessed into the body for extra security. Each compartment has a felt lined bottom & the complete unit is finished with a powder coat finish.

Cabinets can be surface mounted or recessed into the wall. Specify upon ordering.

MODEL	# comps	SIZE	WT
FC-700-3	3	10 x 24x10	90#
FC-700-4	4	20 x 16x10	120#
FC-700-6	6	20 x 24x10	150#
FC-700-9	9	60 x 24x10	210#

# FL 714-6

# 6 COMP PISTOL LOCKER MEDIUM DUTY

DESCRIPTION: 6 COMPARTMENT  
TIP OUT PISTOL LOCKER- Medium

This medium duty pistol locker is designed to offer a high level of security, with a lower price designed to fit your budget.

The body & compartments are built with 14 ga steel, piano hinge w/ non removable hinge & grooved key cam lock

Compartment size is the same 8 1/2"x15 1/2" as the higher level security models to hold the large hand guns, & felt lined to protect the guns finish. The doors are also recessed into the reinforced frame for resistance to prying.

After fabrication, the entire unit is degreased & coated with a powder coat finish

Specify recessed or surface mount when ordering. Units can be ganged together to form larger capacity units.

MODEL	# comps	SIZE	WT

The FLC-707-4 & FLC-707-4W Pistol Locker is our lightest duty locker. Its purpose is for controlling gun access in an area where protection from the public is not a major requirement.

16 ga formed steel body & doors & solid welded construction. Like the heavier models, these doors are recessed into the frame for pry resistance, & each compartment bottom is felt lined for the contents protection.

Each 4 compartment cabinet has mounting holes on all sides for ganging them together to form larger units.

Locks are individually keyed & master keyed cam locks

Finish painted w/ light tan powder coat finish paint

**FLC-707-4W Wall Mount**

# FLCR-748-3 RIFLE CABINET

DESCRIPTION: RIFLE/ LONG GUN LOCKER

The FLCR-748-3 Rifle locker is similar in design to the FLC style pistol lockers with tall compartments for safely securing long guns & rifles

Material: 16 ga formed cold rolled steel

Doors: 7"x45"x3/4" deep 16 ga steel, channel formed with welded corners

Hinge: 16 ga steel continuous piano hinge

Locks: Individually keyed & master keyed pin tumbler cam locks

Assembly: All electric arc welded construction, No spot welding

Finish: Chemically degreased & powder coat, light tan finish. Bottom is lined with 1/8" thick felt material to protect guns finish

These rifle cabinets are designed to be bolted to the wall or floor & can be bolted together for multiple weapon storage. They can also be used with Fasco's High Capacity Storage System for securely storing an entire arsenal, & for mass protection of military weapons. Contact us for more details.

# **EL-772 EVIDENCE LOCKER**

**+P for Pass Thru      +N for Non Pass Thru**

Fasco Security Products also offers a high security evidence locker for use in police stations & jails to securely pass various sized evidence from a non secured area to an evidence room. Each compartment has an individual front door, & all compartments are accessed from the secured side w/ large reinforced steel doors.

Individual compartment doors & frames are constructed of heavy 16 ga formed steel on 16 ga piano hinges & secured with keyless front entry latches, or master keyed snap locks.

The officer simply opens the compartment & puts in the evidence with the proper documentation, closes the door & operates the latching system. After the evidence is removed & processed, the controller releases the internal latch thus tagging it as an available compartment for use again.

Contact our sales office to discuss available sizes & to coordinate with various types of construction & for a full specification.
