

## RACK GUARDS

SAFE. STRONG. PROVEN.

Rack Guards absorb the impact of a forklift or other moving vehicle. They protect your investment by taking the beating for your rack system uprights. Rack Guards are the perfect solution when an economical physical barrier is required.

- Offered in two standard sizes - 12" and 24" heights. Custom heights available upon request.
- Rack Guards feature a triangulated design with heavy-duty construction to deflect impact and prevent damage to rack uprights.
- Rack Guards are constructed of steel and equipped with factory welded base plates that bolt directly to your facility floor.
- Rack Guards are available for rack uprights with standard footplates or seismic footplates.
- Rack Guards come standard with yellow, durable powder coat finish. Custom colors and paint finishes available upon request. Please note: Custom color and finishes may affect price and lead time.
