Project News

PreventionGenetics, Marshfield, WI

The Boson Company has completed construction of our second project for a leading bio-tech company. PreventionGenetics, a global provider with the largest genetic test menu in North America – offering DNA banking and clinical genetic testing for over 800 different genes - held a ribbon cutting to celebrate the completion of a new 50,000 square foot corporate headquarters and laboratory facility in Marshfield, Wisconsin.

Marshfield Middle School Phase I

The first of three busy summers scheduled for major renovations of the 80 year-old building was completed in less than 70 days without a hitch. Phase I included exterior masonry repair and cleaning, new windows, a new secure vestibule and main office, relocating the core resource center, enhanced student safety zone and driveway for student drop-off waiting, as well as preliminary infrastructure work to gear up for next year. Phase II and III will focus on mechanical upgrades, technology, and interior finish items.

■ Breaking Ground

Menomonie Tribal Healthcare Center in Keshena, WI

Groundbreaking Ceremonies were recently held for a major expansion and renovation of the Tribal Healthcare Center for the Menominee Indian Tribe of Wisconsin in Keshena, Wisconsin. The 3-story 23,000 square foot addition will house mechanical and storage areas on the lower level: new dental offices including 15 new operator's on the first floor; and expanded administration, locker room, wellness and fitness areas on the second floor. The existing facility will see some major renovations including a new central pharmacy and the installation of a complete fire protection system throughout the facility. Construction will take place in three phases as the new building becomes occupied in the spring of 2014 the renovation of existing clinic space will begin.

LDS Church in Beulah, North Dakota

The Boson Company will be starting construction in October for a new LDS Church in Beulah, North Dakota. The new church will be constructed at the existing site in Beulah and the old building will be taken down upon completion.

Dormitory Facility at the University of Wisconsin, Richland Center Campus

The Boson Company is beginning construction of a new 2-story Dormitory Facility at the University of Wisconsin, Richland Center Campus. The dorm will house students in spacious rooms that include individual unit restrooms and a community room/gathering kitchen on both levels.

Team Wireless

Team Wireless is expanding their network to Marshfield, WI. Renovations of the former FCS Financial building on North Central Avenue will be completed in time for the holiday shopping season.

Marshfield Senior High School

A Secure Entry project is underway at Marshfield Senior High School. A new entrance and route for all school visitors with some interior office remodeling will allow for updated security and a single-point restricted access to the building during school hours.

20,000 sq. ft. Nelson Jameson Warehouse Expansion

PRESS RELEASE PRESS RELEASE PRESS RELEASE PRESS RELEASE PRESS RELEASE PRESS RELEASE PRESS RELEASE

The Boson Company continues our strong history of community support by gaining naming rights for the High School Fieldhouse through a major donation to the Tiger Booster Club. Visitors will be greeted by new signage welcoming them to **The Boson Company Fieldhouse** for all Marshfield High School activities. Roll Tigers!
