See what our customers have to say about us

We wanted to express our sincere thanks for making our building project such a great experience. We cannot say enough about how smoothly the entire process went and how pleased we are with our new home.

Immediately after walking through your 2013 Parade Home, we knew that we wanted you to build our next house. The craftsmanship and attention to detail were unlike any we had seen.

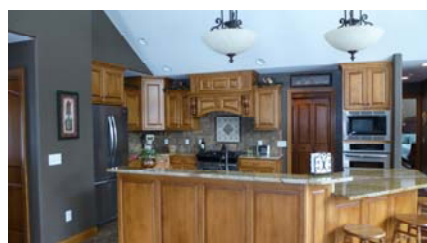

In just four short months, you transformed our simple graph paper sketch into a dream home that we will enjoy for many years to come. It was a pleasure working with both of you and all of your sub-contractors.

Burl and Becky

If you are looking for your next home to be built right, choose Trim Crafters. Matt and Marlin take such pride and care in all that they do. They really live up to the name of Trim Crafters. We were always amazed at how much would be accomplished in a day, with beautiful flawless trim joints and craftsmanship everywhere.

Ross and Vicki

Shortly after you left the house yesterday, the rep. from Liberty Insurance came to look things over to be sure that all was up to code etc. He was VERY, VERY, impressed with the construction overall —and that some codes that are new for 2015 are met---the best he's ever seen —he'd like to use the work that all of you have done to show to other builders to show how excellent construction is done. He had no corrections or recommendations (most unusual in his line of work, he tells us). His only request is to be sure that you use a fire-proof board around the fireplace because even w/ gas the surrounding area can get very hot. Congrats for a very good job in progress Thanks!!! *JAN*

We are more than happy to recommend you and Trim Crafters Custom Homes to any prospective clients you may have. As always, we remain willing to open our home and to share our positive experience working with you and your subcontractors. Your work ethic has attracted a very professional, neat and courteous group of knowledgeable craftsman.

Paul and Coleen

Matt and Marlin – We sit in our great room some days and say, “Is this really ours?” “Did we really plan all of this and watch it go from a hay-field to a beautiful home?” You made our dream of many years a reality and we absolutely love it! We wish we would have built years ago. But then we may not have known you. Things happen for a reason, so we feel the timing was meant to be now. From the bottom of our hearts - Thanks so very much to both of you!

Perry and Connie
