### VISION:

Connect people to plants for a sustainable future.

### MISSION:

Monk Botanical Gardens is seeking to be a premier botanical garden, providing opportunities to experience plants and understand their significance.

### VALUES:

**Stewardship** - We promote environmental sustainability, biodiversity, and the protection of our natural resources. We commit ourselves to understanding how our actions create change in the world.

**Awareness** - We offer experiences to the public that inspire increased appreciation and understanding of plant communities and the relationship between these plant communities and people.

**Inclusiveness** - We provide a welcoming educational garden for a diverse population of people.

**Respect** - We have a culture of cooperation and support among staff and volunteers working together to carry out the organization's mission.

**Excellence** - We excel at innovation, creativity, collaboration, reliability and accountability.

**Aesthetics** - We provide a variety of beautiful gardens and plants that engage visitors because of their unique landscaping, design and plant selection.

# LETTER FROM THE BOARD PRESIDENT

Thank you to all of our members and friends for helping to make 2019 another successful year for the Monk Botanical Gardens! Based on 2019, we look forward with confidence that 2020 will again be a memorable year for our programming, events and projects.

We completed important capital projects in 2019 that promise exciting rewards into the future. These included the installation of 30 lights throughout the Garden's trails and renovations to the Robert and Carol Monk Home. And, we finished revising and updating our Master Plan, which was first adopted in 2005.

Unfortunately, it was distressing last summer when we discovered significant vandalism at the Gardens, mostly centered in the Monk Home and the Potager. However, we were gratified beyond words when the community stepped forward and contributed funds to help us repair the damage. It was a further demonstration that the Gardens hold a special place in the Greater Wausau community.

Passionate members, dedicated volunteers, generous donors, and quality board members and staff are key to the success of any community organization. We are fortunate to have all of these elements and is why we can keep enhancing the treasure that is the Gardens. We have many first-time visitors, and we know from experience that most of them enjoy their visit so much they make plans to return. We encourage you to help us get the word out about Monk Gardens so we can keep striving toward our mission of being "a premier botanical garden, providing opportunities to experience plants and understand their significance".

We'll see you at the Gardens.

Robert Reinertson  
President, Monk Botanical Gardens Board
