

SAFETY!

Here at CW Driving School, we strive to give our students the best possible and safest courses available. We have a professional environment that makes learning easy and fun.

Students learn from repetition. With direction in safety and response to the actions of other drivers, I am a firm believer in developing good sound driving habits. It takes about 40 days of doing a skill correctly to become a habit. The means you don't have to think about it -- just react. This is the foundation that I use for teaching.
