

YOUR STORAGE SYSTEM STARTS HERE. AND ENDS HERE.

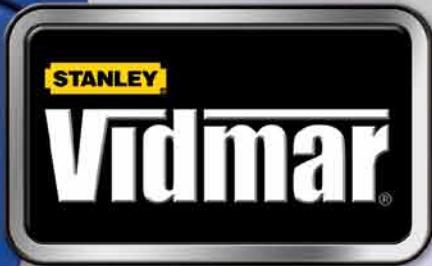

Custom-Configured & Preconfigured Cabinets

TOUGH
STORAGE
SOLUTIONS™

THE

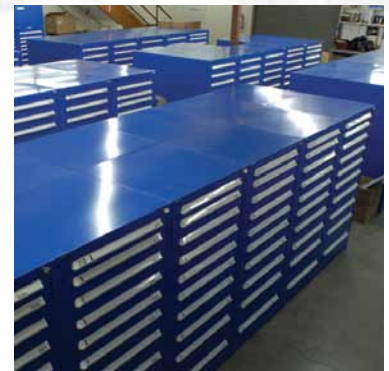

BIG BE

So you've heard that Stanley Vidmar offers some of the world's toughest storage solutions. But beyond unsurpassed ruggedness, what are the "big benefits" of choosing Stanley® Vidmar® storage cabinets? From extreme space savings to increased productivity, Vidmar is the ultimate use of your storage space:

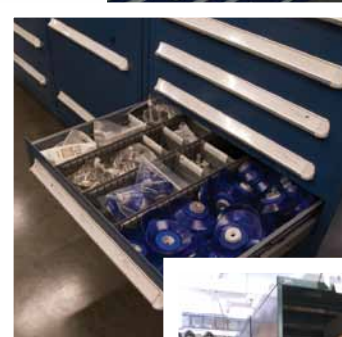

USE LESS TO STORE MORE

Simply put, Vidmar allows you to store more by using less. Think about it this way: with just two Stanley® Vidmar® storage cabinets, you can store the same amount of material that you would with five open shelving units. **That's a 5:2 space-saving ratio!**

FINALLY GET ORGANIZED

Vidmar drawer storage gives every item in your inventory its own specific, identifiable location. And with that level of organization, **taking and maintaining inventory is easy.**

CUT RETRIEVAL TIMES IN HALF

With traditional storage, employees have to stoop and stretch to reach stored items. With Vidmar, all stored parts are within easy reach and full view, which means **fast, effortless retrieval** (and less waiting for customers and service personnel).

PROTECT YOUR MOST VALUABLE ASSET

We're talking about the people you serve. Dirty or damaged parts irritate customers (and make returning parts difficult). With enclosed cabinet storage, all inventory is protected from dust, dirt, damage, and loss which equals **happy, satisfied customers!**

NEVER STOP GROWING

Vidmar's modular storage cabinet systems can be infinitely expanded as your needs change. **Stanley Vidmar will grow as you grow.**

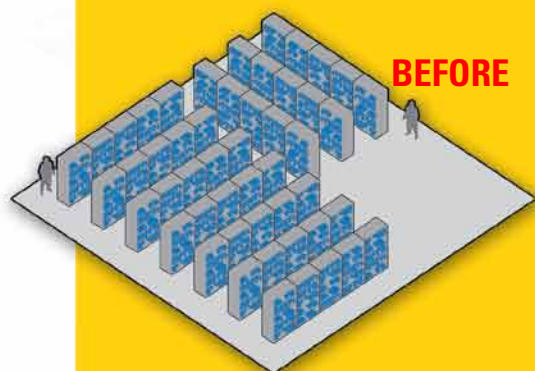

**LIFETIME
GUARANTEE**

NEFITS

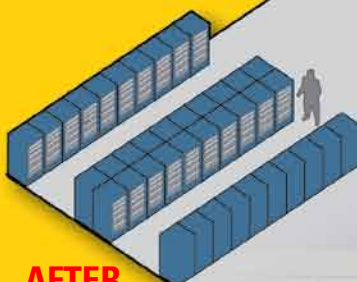

SEE THE DIFFERENCE

Here's a simple way to see the difference between traditional open shelving and a Stanley® Vidmar® modular storage cabinet system:

BEFORE

AFTER

	Open Shelving	Stanley® Vidmar® Modular Cabinets
Number of Units	100 open shelving units	40 cabinets
Retrieval Time	3.2 minutes	1.1 minutes
Inventory Time	4 days	1 day
Personnel Required	2	1

CUSTOM-CONFIGURED CABINETS

Stanley® Vidmar® custom-configured modular storage cabinets are the building blocks used to create our flexible, super-tough storage systems! Available in eight cabinet housings and six cabinet heights, cabinets can be outfitted with your choice of 27 drawer heights. From there, each of your drawers can be configured with the compartment layout that best suits your storage needs. Custom-configure your cabinets in four easy steps:

1. HOUSING

First, choose from one of eight cabinet housings:

- Standard:** 30" W x 27-3/4" D (762mm W x 705mm D)
- Shallow Depth:** 30" W x 21-3/8" D (762mm W x 543mm D)
- Small:** 22-1/2" W x 27-3/4" D (572mm W x 705mm D)
- Small Shallow Depth:** 22-1/2" W x 21-3/8" D (572mm W x 543mm D)
- Extra-Wide:** 45" W x 27-3/4" D (1143mm W x 705mm D)
- Extra-Wide Shallow Depth:** 45" W x 21-3/8" D (1143mm W x 543mm D)
- Double-Wide:** 60" W x 27-3/4" D (1524mm W x 705mm D)
- Double-Wide Shallow Depth:** 60" W x 21-3/8" D (1524mm W x 543mm D)

Next, choose from one of six cabinet housing heights:

1) Desk
(Model 0135)
27" (686mm)

2) Table
(Model 0155)
30" (762mm)

3) Bench
(Model 0175)
33" (838mm)

4) Standup Work
(Model 0200)
37" (940mm)

5) Counter
(Model 0245)
44" (1118mm)

6) Eye Level
(Model 0340)
59" (1499mm)

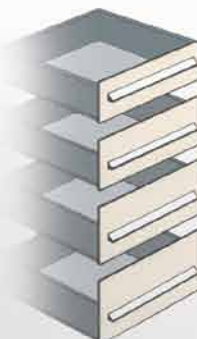

Also available as Shallow Depth.

2. DRAWERS

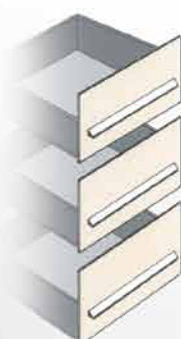

Based on what you need to store, choose the combination of drawer heights that works best for you. 27 different drawer heights are available (15 shown here). *Drawer depth and width will be determined based on your custom cabinet housing size.*

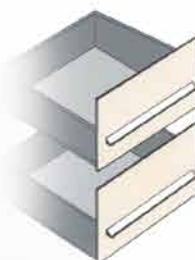

- 20**
2-1/4" (57mm)
- 25**
3" (76mm)
- 30**
3-7/8" (117mm)
- 35**
4-5/8" (137mm)
- 40**
5-3/8" (159mm)
- 45**
6-1/4" (178mm)

- 50**
7" (178mm)
- 55**
7-3/4" (197mm)
- 60**
8-1/2" (216mm)
- 65**
9-3/8" (240mm)

- 70**
10-1/8" (257mm)
- 75**
10-7/8" (276mm)
- 80**
11-3/4" (297mm)

- 85**
12-1/2" (318mm)
- 90**
13-1/4" (337mm)

3. COLORS

Mix and match Vidmar's ten standard housing and drawer colors to create a cabinet that matches your work environment! *Custom colors also available.*

Off White S22570	Red S50054
Bright Blue S22447	Black S20106
Warm Gray S20917	Hunter Green S50091
Beige S20100	Medium Gray S22567
Dark Blue S22578	Light Blue S22577
Olive Drab Green S22365	Vidmar Gray S23321
Vidmar Green S20606	

4. DRAWER INTERIORS

Within each of your cabinet drawers, you'll need a drawer interior that matches up with your storage items.

Vidmar's most popular drawer interiors are partition-and-divider setups referred to as "Loading Diagrams," available in the custom configurations that best suit your needs! Once you know how many storage compartments you'll need in a drawer, the rest is easy.

All drawer compartments are factory-installed and fully adjustable.

Limitless Loading Diagram Options

PRECONFIGURED CABINETS

When designing our line of preconfigured modular storage cabinets, Stanley Vidmar thought of everything! Based on the cabinet configurations used most today, preconfigured cabinets are available in your choice of housing, height, drawer interior, and color.

The following represent a basic overview of preconfigured housing and heights. Preconfigured cabinets are available in dozens of drawer configurations within each housing and height setup.

STAK SYSTEM

Storage and Handling in One Integrated System

Have all your heavy-duty needs met with the Stanley® Vidmar® STAK System®. Safely store and retrieve your largest, most bulky parts!

A single operator can locate and retrieve critical inventory, helping reduce production interruptions.

With a captive lifting and handling device, and removable, adjustable pallets, the STAK System helps maximize storage density by utilizing vertical space and occupying a small footprint—as little as 250 square feet.

- Single operator can handle loads weighing up to 4,000 lbs., without a forklift
- Store or retrieve every load in less than 2-1/2 minutes—regardless of size, shape, or weight
- Aisle space requirements are narrower than those required with a conventional forklift
- Rises approximately 16 feet above the ground but small overall footprint saves valuable floor space
- Handling device maneuvers on four axes, creating total 360° flexibility
- Adjustable pallet locations maximize storage density
- Available as 2K STAK System (2,000-lb. capacity), 4K STAK System (4,000-lb. capacity), or HazMat STAK System (2,000-lb. capacity)

Component damage is minimized since parts are kept off the plant floor.

HEAVY-DUTY STORAGE SOLUTIONS

Ideal for use in conjunction with Stanley® Vidmar® cabinets or as standalone storage systems, Vidmar's comprehensive selection of action-tested storage equipment also includes:

Workstations

Custom-configured to the setup that will best suit your day-to-day needs! Choose your cabinets, drawers, work surfaces, and accessories—and add on to your workstation whenever necessary.

NC Tool Storage

Constructed from extruded aluminum for superior strength and durability, all tool storage components are designed to carry your tools in a safe, well-organized fashion.

Tire Carousel

The ultimate in convenience and efficiency! Tire Carousel does the lifting for you—one person can easily rotate carrier frames and safely remove tires at floor level.

Service Technician's Center (STC)

A state-of-the-art combination of tool and equipment storage, technical benching, computer cabinets, hydraulic lift controls, hose reel storage, and more!

Adjustable Racking

A versatile solution for the storage and retrieval of large, bulky items too heavy to be moved by hand! Single-operator access and customized floor-to-ceiling storage.

Mezzanine Systems

Reconfigure whenever necessary—even when fully loaded! Available as two convenient systems—MaxiMezz™ System and MiniMezz™ System!
