

Over 125 churches have chosen Kulp's for their roofing projects since 2004!

Find out why by scheduling a free re-roofing seminar at your church.

Call **1-800-285-2917** for more information.

Visit our website at www.kulproof.com for a more complete list of church projects.

We ran out of room to list them on this sheet of paper!

Dear Trustee, Board or Building Committee Member,

Perhaps you have received information from our company before, and are familiar with our products and services, and what we have been able to do for dozens of churches throughout Wisconsin in the last ten years. Then again, you may have recently been appointed to the role of trustee, board member, or caretaker in your church, and have begun to take note of the need for a new roof in the future, in the next year or two. In either case, if a new roof is in your church's future, we would like to have the opportunity to speak with you, or to make a presentation to your board or building committee.

I should also mention that we install spray foam insulation, which is great for new construction projects, should your church be planning an addition or a new facility. However, it can also be very useful in solving some building performance problems in existing church buildings: ice damming, excessive heat loss, condensation, etc.

So, pick up the phone and call us at 800-285-2917, or contact us through our website at www.kulproof.com. We'll be happy to come out and evaluate your church roof, make suggestions, and answer your roofing and insulation questions.

Looking forward to hearing from you!

Warmly, Bob and John Kulp

With 7 manlifts ranging from 40 feet to 125 feet we can access almost any part of your church building.

- This will help you in the following ways:
- Improved scheduling = even happier clients
- More competitive pricing = less overruns
- Better working conditions = better quality
