*Here's what our clients are saying...*

I've used Auto Select multiple times for various things with our vehicles. They are very prompt at getting my vehicle looked at and fixed. Also, very good customer service. *Kelly K - Appleton East*

Fast friendly and professional. *Stephanie H - Appleton Express*

Always can count on Tony and the staff to always be there and trust. I would highly recommend Auto Select. Been a customer for 6 years and Always have peace of mind my vehicles are taken care of. Wouldn't think of ever going anywhere else. Thank You!!!!!! *P&D Grooving - Appleton North*

Vehicle broke down driving on 41 and was towed to Auto Select. We aren't from the area and never heard of them before. The main computer went out and I didn't know if I wanted to fix a 2002 Taurus that had been nickel and diming me. Anthony explained what was wrong with the vehicle and what it was going to cost to fix it. The service and customer care was excellent. I would definitely recommend them for service, price and repair costs. Thanks! *Seibel Family - Neenah*

Jaramey and Chad were so awesome to work with! Had to have my car towed and rekeyed and they always were very friendly and professional whenever I called or emailed. Definitely recommend! *Anna G - Green Bay East*

I brought in my daughter's ACADIA for an AC check on Tuesday and you had the work finished the same day. She drove back to Minnesota yesterday and called to say that even since the car was new, the AC never worked as well. Thanks for a GREAT JOB. *Wayne L - Green Bay West*

This my second time using them, always professional. If they spot any other issues they let you know and ask if you would like it taken care of they are also very reasonable. *Kim S - Shawano*

Best place I've ever taken my car. Had it located somewhere else where the mechanic wasn't getting anywhere and my car was broke down over three months. Brought my car here and they turned it around in four days and runs perfect! Loved the service and highly recommend this shop! *Eli K - Stevens Point East*

The convenience and trust are wonderful! They came and picked up my vehicle, while I was working, for an oil change and returned it promptly. They billed me, which is almost unheard of nowadays. Excellent price and service. Highly recommend! *Sara E - Weston / Wausau*

**NOT SO COOL (AIR CONDITIONING SYSTEMS)**

There's nothing quite like getting in your vehicle on a hot day, switching on the air conditioning and having warm air blow out of the vents. You may have had no problem for months and then, one day, you are driving around in a sauna. You're hot stuff, but not in a good way!

So, what goes wrong when the AC isn't working? It could be a lot of things because the system has many different components. One thing that's a common cause is the vehicle is low on refrigerant (it used to be called Freon). If that's the case, it's not as simple as simply adding more. Sure, it may fix it quickly for a short time, but it's more likely than not that the refrigerant will just leak out again.

The original Freon used in air conditioners was destroying the Earth's ozone layer, so that's not used much anymore. But the one that's currently used also contributes to global warming, so it's important that as little of that escapes as possible. So, a technician will determine if there's a leak in your system, where

it is and fix that before adding new refrigerant. Your vehicle also has an evaporator or two, and those can fail. Leaks are often the problem with them as well. The big component that can go bad is the compressor, often a victim of age, wear or neglect.

A technician will also check to see that the blower is working correctly. That's what blows that cool air into the cabin. Sometimes the motor will fail, a relay will go bad or a fuse will blow. As you can see, there are lots of different parts involved here!

The good news is that Auto Select has the special equipment to recover the refrigerant and check the system's pressure, both vital to properly servicing the air conditioning system.

As with many vehicle components, regular maintenance can go a long way to minimizing problems in the air conditioning system. It can reduce the chance of the compressor having to be replaced, too. *Pretty cool, huh?*

## HUMOR

A woman was taking an afternoon nap. When she woke up, she told her husband, "I just dreamed that you gave me a pearl necklace. What do you think it means?" "You'll know tonight," he said. That evening, the man came home with a small package and gave it to his wife. Delighted, she opened it to find a book entitled "The Meaning of Dreams."

A teacher asked her students to use the word "beans" in a sentence. "My father grows beans," said one girl. "My mother cooks beans," said a boy. A third student spoke up, "We are all human beans."

A man went to his lawyer and told him, "My neighbor owes me \$500 and he won't pay up. What should I do?" "Do you have any proof he owes you the money?" asked the lawyer. "Nope," replied the man. "OK, then write him a letter asking him for the \$5,000 he owed you," said the lawyer. "But it's only \$500," replied the man. "Precisely. That's what he will reply and then you'll have your proof!"

### What is the name of this classic American car?

A: 1965 Lincoln Continental

### Strawberry Pie

**INGREDIENTS:**

- 2 cups fresh strawberries, divided
- 1 pkg. (3oz.) Jell-O Strawberry Flavored Gelatin
- ½ cup cold water
- 1 ready-to-use graham cracker crust (6oz.)
- ¾ cup boiling water
- ice cubes
- 1 tub (8oz.) Cool Whip Whipped Topping

**DIRECTIONS:**

1. Slice 1 cup strawberries, refrigerate for later use. Chop remaining strawberries; set aside.
2. Add boiling water to gelatin mix; stir 2 minutes until completely dissolved. Add enough ice to cold water to measure 1 cup. Add to gelatin, stir until slightly thickened. Remove any unmelted ice.
3. Whisk in Cool Whip. Stir in chopped strawberries. Refrigerate 20 to 30 minutes, or until mixture is very thick and will mound. Spoon into crust.
4. Refrigerate 6 hours or until firm. Top with sliced berries just before serving.

Enjoy!
