CHOOSING THE RIGHT REPAIR SHOP

No matter what you drive - sports car, family sedan, pick-up, mini-van, work vehicle - when you go in for repairs or service, you want the job done right. The following advice should take much of the guesswork out of finding a good repair establishment.

Don't just drop your vehicle off at the nearest establishment and hope for the best. That's not choosing a shop, that's merely gambling! With such busy lives, many of us often make choices on autopilot without really thinking about it. Such as taking our cars back to the service department of the dealership where we purchased them. So, you may be surprised to know that less than half of new-car owners remain loyal to their new car dealer after 2 years, instead going to an independent local auto repair shop. According to the National Institute for Automotive Service Excellence, 70% of car owners go to independent shops even while their cars are still under warranty.

Thanks to the Magnuson-Moss Warranty Act of 1975 you do not need to have maintenance and car repair work done by a dealership to keep a warranty intact. But if you choose an independent mechanic be sure to keep all your records demonstrating that you had the required maintenance done according to the manufacturer's schedule.

In terms of what's best for your car there's not a big difference between a car dealership and a good independent mechanic. So, to how to choose between them? The major factor in most people's minds is cost. Studies covering thousands upon thousands of service visits show that car repairs at a dealer shop range from 15% to 25% more expensive, with the average right in the middle. But there's other factors to consider as well.

Besides price, the biggest advantage of a local independent garage is personal service. You're likely to meet directly with your mechanic, and after a couple of visits they'll remember you and your vehicle. Small independent shops depend on repeat customers and word-of-mouth "marketing," so they know they really have to

please you. They also tend to be close by and more convenient. Even without an appointment there's usually little or no waiting to be seen, although maintenance and repairs tend to take a little bit longer. Unlike just a few years ago dealerships had the advantage of more up-to-date Technical Service Bulletins (TSB) detailing diagnosis, repairs, and special procedures. But now days' independent shops can have pretty much the same computer systems and information.

Why choose Auto Select:

Client Satisfaction Rating 4.8 out of 5 Stars ★★★★★

Here's what our clients are saying...

Mike was very nice and bent over backwards for me. I can't tell you how much I appreciate everything he has done for me. I highly recommend this place! *Jada M - Appleton East*

Always great service here! Staff is super friendly and they don't try to charge you for things that don't need to be done! *Wendy M - Appleton N*

We usually use Auto Select in Green Bay. However, we were in Neenah and needed an emergency repair on our vehicle. We were extremely happy to find the same stellar customer service, quick repairs and fair prices as our Green Bay site. Love Auto Select!! *Denis W - Neenah*

Very knowledgeable and understanding. Thorough and expedient service technicians. Their team of service advisors lay out all of the necessary issues with your vehicle. When I need auto service again that I can't do, I will be returning to Auto Select. *Adrian N - Green Bay East*

This was my first time going to Auto Select and I couldn't be happier with my experience! Chad was wonderful to work with and I didn't feel like I was being taken advantage of. I dropped off my car to have the brakes repaired at 9 a.m. and they had it ready to go before noon. I will definitely be back! Thank you! *Amber C - Green Bay West*

Polite service, excellent work. They explained everything to me in simple language. Highly recommend them. Will be having all my work done there. *Karen R - Shawano*

Knowledgeable staff. Fast, excellent service. Have referred many people to Auto Select. I trust my vehicle to be serviced here over other places in town. Always flexible. They do great! *Jake M - Stevens Point East*

I was impressed at how nice and courteous the person was on the phone even after all my questions. I needed my starter replaced in my Hyundai and it was ready to go for me by the afternoon. I was happy to have it ready when I got out of work. *Lacy L - Stevens Point South*

Mike and the guys run an honest, straight forward shop. *Brian R - Weston*

HUMOR

Lodge Meeting

A man was giving a speech at his lodge meeting. He got a bit carried away and talked for two hours. Finally, he realized what he had done and said, "I'm sorry I talked so long, I left my watch at home."

A voice from the back of the room replied, "There's a calendar behind you..."

Dangerous Situation

You are driving in a car at a constant speed. On your left side is a 'drop off', (the ground is 18-20 inches below the level you are traveling on), and on your right side is a fire engine traveling at the same speed as you.

In front of you is a galloping horse, which is the same size as your car and you cannot overtake it. Behind you is a galloping zebra. Both the horse and the zebra are also traveling at the same speed as you.

What must you do to safely get out of this highly dangerous situation?

Get off the merry-go-round!!

Brain Teaser

A woman met her husband at the train station after work for the ride home. He looked haggard, so she asked, "Rough day?"

"You bet it was," he groaned. "Our computers were down, and we had to think all day long."
